MARANTZ 5010

The SR5010 combines top-notch audio and video performance with convenient wireless connectivity in a sturdy, attractive package that makes a commanding centerpiece in any home theater. It's loaded with up-to-the-minute features and backed by expert engineering to ensure you get the very most out of any entertainment source you have connected.

A perfect blend of style and substance

Looks may not be everything, but we've come to associate the distinctive porthole display on the front panel of Marantz receivers with outstanding quality. The SR5010 combines top-notch audio and video performance with convenient wireless connectivity in a sturdy, attractive package that makes a commanding centerpiece in any home theater. It's loaded with up-to-the-minute features and backed by expert engineering to ensure you get the very most out of any entertainment source you have connected. This receiver's powerful amplification ? rated at 100 watts per channel in stereo mode ? can fill any room with heart-pounding surround sound or clean, detailed music.

Ready for 4K

Every HDMI connection on the SR5010 is HDCP 2.2 compliant, so you'll be able to take full advantage of current and future Ultra HD content with a compatible 4K TV. You'll enjoy remarkable clarity and definition from 4K Blu-ray discs (a format we're excited to see later this year), online video streaming and subscription-based services, and even home movies taken with a 4K-capable camera. You don't have to wait for more content to be released before you can enjoy ultra-high-definition picture quality ? the SR5010 can upscale lower-resolution signals to 4K, so all your video sources, including older DVDs and Blu-rays, will sparkle with new life.

Take your home theater above and beyond with Dolby Atmos and DTS:X?

A technology that just made its debut in home theater receivers last year, Dolby Atmos creates the most lifelike, captivating surround sound of any audio format we've heard to da
