

5.1 Home Theater Speaker System

SPEAKERS	MODEL	FEATURES	SPECS
	<p>DAVIS DHAVANI</p>	<p>This floor standing speaker uses our latest fiber glass midrange driver equipped with a central bullet.</p> <p>The low frequency response is amazing for the size of the speakers. With exceptional power handling the crossover permits the loudspeaker to reproduce accurately and with precision that high end sound with striking clarity and spaciousness with an unprecedented good dynamic with accurate low bass reproduction at any volume setting. The linearity of the sensitivity curve is excellent and a result the sound reproduced is never aggressive and is satisfying even to the most discerned listener or musician. This model may be mated with any type of amplification equipment. .</p>	<p>Charge : Bass reflex : circular port Nominal power : 130 W Max Power : 200 W Number of ways : 3 Number of drivers : 4 Sensitivity : 92 dB Frequency range (+/- 3 dB) : 30-20000 Hz Tweeter : 25mm soft dome Midrange : fiber glass 17 cm (6.5") Woofers : 2 x 21 cm (8") cellulose Dimensions (cm) : 23 x 34 x 108 Weight (kg) : 20.4 Impedance : 4...8 ohms Crossover (cut off) : 400/4000 Hz</p>
	<p>DAVIS VINCI SIGNATURE</p>	<p>A big sound, very realistic.</p> <p>This is the «big brother» of the fantastic MATISSE Signature. Same details in the voices, but much deeper low frequencies, which permits to use this model in the largest living rooms.</p> <p>The VINCI Signature is the 5th version of VINCI speaker. We have modified the crossover and the drive units to enlarge the frequency response while keeping the dynamics.</p>	<p>Charge : Bass reflex : circular port Nominal power : 130 W Max Power : 200 W Number of ways : 3 Number of drivers : 4 Sensitivity : 93 dB Frequency range (+/- 3 dB) : 35 – 23 000 Hz Tweeter : 25mm soft dome Midrange : Kevlar cone 13 cm (5") Woofers : 2 x 17 cm (6.5") cellulose Dimensions (cm) : 21 x 29 x 110 Weight (kg) : 26 Impedance : 4...8 ohms Crossover (cut off) : 400/4000 Hz</p>

DAVIS SOPHIA

Each satellite, resin, is coated with a real piano lacquer.
A structure that gives them extraordinary rigidity.

Listening, attacks are straightforward, without lag. The box with speaker and vent pointing down, is responsible for low frequencies with amazing energy.

The good performance of the satellites (relative to their size) allows them to be associated with most electronic market.

The pack consists of 5 adjustable supports that can be placed on a table or be screwed to walls, thereby ideally position the speakers in your listening room.

The cables are supplied (speakers and subwoofer cable connection cables / amplifier).

The advantage of such a system relies on identical satellites that ensure perfect homogeneity of a chamber to the other.

Satellite
Closed box
Nominal power: 70 W
Max power: 100 W
number of ways: 2 ways - coaxial
Quantity of driver: 1
Sensitivity: 89 dB
frequency response: 150-20000 Hz
Tweeter: coaxial 25mm
Midrange: Kevlar 10 cm / 4 inch
Dimensions (cm): 14x14x17
Weight (kg): 3
Impedance: 4 ... 8 ohms
cut off: 3000 Hz
